

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. - 20. (cancelled)

21. (currently amended) A substrate impregnated with a cleansing preparation, wherein the cleansing preparation is foaming, has a viscosity of from 1 to 3,000 mPa.s, and comprises:

- (a) a total of from 0.1 % to 15 % by weight of (i) at least one anionic surfactant selected from acylamino acid surfactants, sarcosinates, sulfosuccinate citrates, monoalkyl phosphates, and olefin sulfonates, and (ii) at least one nonionic surfactant selected from alkyl polyglycosides;
- (b) from 40 % to 99 % by weight of water; and
- (c) from 0.01 % to 3 % by weight of one or more preservatives,

each based on a total weight of the cleansing preparation, and wherein the impregnated substrate is present in a packaged form.

22. (previously presented) The substrate of claim 21, wherein a weight ratio (i) : (ii) is from 2 : 5 to 5 : 2.

P30826.A04

23. (previously presented) The substrate of claim 22, wherein the weight ratio is from 3.5 : 4 to 5 : 3.

24. (previously presented) The substrate of claim 21, wherein (i) comprises an acylamino acid surfactant.

25. (previously presented) The substrate of claim 21, wherein (i) comprises at least one of sodium cocoylglutamate, sodium lauroylglutamate, sodium capryloyl glutamate, and di-TEA-palmitoyl aspartate.

26. (previously presented) The substrate of claim 21, wherein (i) comprises sodium cocoylglutamate.

27. (previously presented) The substrate of claim 21, wherein (ii) comprises at least one of lauryl glucoside, decyl glucoside, and cocoglucoside.

28. (previously presented) The substrate of claim 26, wherein (ii) comprises at least one of lauryl glucoside and decyl glucoside.

29. (previously presented) The substrate of claim 21, wherein the preparation comprises from 50 % to 90 % by weight of water.

30. (previously presented) The substrate of claim 21, wherein the preparation comprises from 60 % to 90 % by weight of water.

31. (previously presented) The substrate of claim 21, wherein (c) comprises at least one preservative selected from benzoic acid and salts and derivatives thereof, and salicylic acid and salts and derivatives thereof.

32. (previously presented) The substrate of claim 21, wherein the preparation comprises from 1 % to 10 % by weight of (a).

33. (previously presented) The substrate of claim 21, wherein the preparation comprises from 0.1 % to 2 % by weight of (c).

34. (previously presented) The substrate of claim 21, wherein a weight ratio of substrate : preparation is from 1 : 0.5 to 1 : 5.

35. (previously presented) The substrate of claim 21, wherein the preparation has a viscosity of from 1 to 2,500 mPa.s.

36. (previously presented) The substrate of claim 21, wherein the preparation further comprises at least one film former.

37. (previously presented) The substrate of claim 36, wherein the film former comprises at least one polyquaternium substance.

38. (currently amended) A wipe impregnated with a cleansing preparation, wherein the cleansing preparation is foaming, has a viscosity of from 1 to 2,500 mPa.s, and comprises:

- (a) a total of from 1 % to 10 % by weight of (i) at least one anionic surfactant selected from acylamino acid surfactants, and (ii) at least one nonionic surfactant selected from alkyl polyglycosides, a weight ratio (i) : (ii) being from 2 : 5 to 5 : 2;
- (b) from 50 % to 99 % by weight of water; and
- (c) from 0.1 % to 2 % by weight of one or more preservatives selected from benzoic acid and salts and derivatives thereof, and salicylic acid and salts and derivatives thereof,

each based on a total weight of the cleansing preparation, and wherein the impregnated substrate is present in a packaged form.

39. (previously presented) The wipe of claim 38, wherein the weight ratio (i) : (ii) is from 3.5 : 4 to 5 : 3.

40. (previously presented) The wipe of claim 38, wherein (i) comprises sodium cocoylglutamate.

41. (previously presented) The wipe of claim 40, wherein (ii) comprises at least one of lauryl glucoside and decyl glucoside.

P30826.A04

42. (previously presented) The wipe of claim 39, wherein the preparation comprises from 60 % to 90 % by weight of water.

43. (previously presented) The wipe of claim 39, wherein the preparation further comprises at least one film former which comprises a polyquaternium substance.
